

PREMIUM PURE CBD OIL

Nature's Medicals

| | |
|----------------------------|--|
| Product description | pure CBD oil in pipette dropper bottle |
| Ingredients | MCT oil, pure CBD isolate contains no THC |
| Country of Origin | The Netherlands |
| Storage/handling | Store in a dark place, between 50°F - 77°F / 10°C - 25°C Keep out of reach of children Do not freeze |
| Packaging | 10ml, 30ml and 50ml / 0.34, 1.01 and 1.69 fl oz. Biophotonic, UV protective glass bottles with tamper evident ring |
| CBD percentage | Each volume is available with 5%, 10%, 15% or 20% CBD |

Nature's Medicals

Nature's Medicals CBD oil begins with organically grown hemp which is cultivated and harvested with love. After a very careful and intensive process of extraction and isolation, the cannabidiol (CBD) obtained is tested on pureness in an external laboratory to ensure CBD isolate of the highest quality. As we want the oil as a whole to live up to the highest of requirements, this pure CBD isolate is then dissolved in a Medium Chain Triglyceride oil, free of additives, solvents and catalyst residues.

Medium Chain Triglyceride oil (MCT)

The MCT oil we use is obtained by the esterification of vegetable glycerol, with a specific and selected blend of fatty acids, caprylic (C8:0) and capric (C10:0). Manufactured under very strict conditions and on a dedicated food compliant line, this particular MCT oil is of exceptional quality. It is clear, colorless and neutral in odor and taste. Its excellent properties and chemical structure make it the perfect nutritional complement for healthy food products.

This unique conjunction of high quality pure CBD isolate and beneficial MCT oil results in an effective and simple way to get your daily dose of CBD without any risk on psychoactive or other additional side effects. It contains guaranteed zero THC and is versatile in use because it is colorless, odorless and tasteless.
